## M'NAB RESIGNS; CAUSES SENSATION

United States District Attorney For Northern California Says Attorney General McReynolds Caused Postponement of White Slave Charges Against Driggs and Camenitti

### INFLUENCE STAYS THE HAND OF JUSTICE

In a Message to President Wilson, Prosecutor Says Son of Newly Appointed Immigration Commissioner and the Former State Architect Ruined Two High School Girls by Taking Them to Reno—Accused Using Every Method to Escape Trial

San Francisco, June 21.—United States District Attorney McNab announced today that he has resigned his office. The resignation follows an exchange of telegrams with Washington regarding the conduct of the local federal prosecutor's office.

McNab's resignation, the acceptance of which he requests by wire, is contained in a long telegram to President Wilson. McNab says in the message that he feels forced to resign because of orders from the attorney general trying his hands in the prosecution of the Driggs-Camenitti white slave case and the indictments against officials of the Western Fuel company.

He states he received orders to postpone action in these cases by telegram yesterday and in spite of his protest and statement to the attorney general that efforts to tamper with government witnesses in the cases had been made.

"In bitter humiliation of spirit," the message says, "I am compelled to acknowledge what I have heretofore indignantly refused to believe, namely, that the department of justice is yielding to influence which will cripple and destroy the usefulness of this office."

Maury I. Diggs, former state architect, and Drew Camenitti, a son of former State Senator A. Camenitti of Jackson, Cal., who recently was appointed commissioner of immigration by President Wilson, eloped to Reno, Nev., last winter with two high school girls of Sacramento, leaving their wives and babies behind them. They were brought back to California and indictments found against the men under the Mann white slave act.

McNab's Message to Wilson. The message to the president follows: "Woodrow Wilson, president of the United States, Washington, D. C.:

"I have the honor to tender my resignation as United States attorney for the northern district of California, to take effect immediately. I am ordered by the attorney general over my protest to postpone until autumn the trials of Maury Diggs and Drew Camenitti, accused of a hideous crime which has ruined two girls and shocked the moral sense of the people of California and this after I have advised the department of justice that attempts have been made to corrupt the government witnesses and friends of the defendants are publicly boasting that the wealth and political prominence of the defendant's relatives will procure my hand to stay through influence at Washington.

"In these cases two girls were taken from cultured homes, bullied and frightened in the face of their protests into going to a foreign state, were ruined and debauched by the defendants who abandoned their wives and children to commit the crime.

"In bitter humiliation of spirit I am compelled to acknowledge what I have heretofore indignantly refused to believe, namely, that the department of justice is yielding to influence which will cripple and destroy the usefulness of this office. I cannot consent to occupy this position as a mere automation and have the guilt or innocence of rich and powerful defendants who have been indicted by grand juries, determined in Washington on representations on behalf of the defendants without notice to me.

"I seem unable to convey to the department the understanding of the serious situation in which this action will leave this office. If the department in future has to review the finding of grand juries and nullify their indictments, then this office might as well be abolished, for its functions will have ceased to exist.

"Neither my sense of honor nor public duty can permit me thus to destroy the prestige of this office.

"With profound respect and regret that such a step is necessary, I have the honor, in view of my absolute inability to agree with the department to ask that I be by wire immediately relieved from duty in order that the department of justice may be permitted to carry out its policy in these cases without future obstruction by me." (Signed, "JOHN L. M'NAB.")

MEDICAL EXPERTS  
IN PELKEY CASE

Calgary, Alberta, June 21.—Several medical experts were called upon to testify for the defense that Luther McCarty did not die from a blow to the head when the trial of Arthur Pelkey on a charge of manslaughter was resumed here today. The prosecution's experts have been unanimous that McCarty's death was due to a

clot of blood on the brain caused by dislocation of the neck.

The defense hopes to establish the fact that McCarty was in poor condition when he entered the ring on May 24 and that the blow delivered by Pelkey in the first round did not have sufficient force to cause fatal result.

## FORM NEW CABINETS

Australian Governor General Commands Liberal Leader to Organize Ministry to Succeed One Just Resigned—Denmark Has Another Cabinet

Melbourne, Australia, June 21.—Joseph Hume Cook, the leader of the Liberal party in the Australian federal parliament, was today commanded by the governor general of the commonwealth, Baron Denham, to form a new cabinet to take the place of the ministry under the premiership of Andrew Fisher, who resigned yesterday.

The change of governments was caused by the defeat of the Labor party, which had been in power since 1910.

New Danish Cabinet. Copenhagen, June 21.—The new Danish cabinet was formed today by C. Th. Zahle, a former premier, and the leader of the radical party.

## LEAVE DEAD ON FIELDS

Three brigades of Montenegrin infantry are advancing to join the Serbian troops at the front.

The Vardar river runs through Macedonia to the Gulf of Saloniki. The Bulgarians occupy the country along the left bank, while the Serbians and Greeks hold the positions from the opposite side.

Vienna, June 21.—An attack by the Bulgarians troops on the Serbians and Greeks is expected on the river Vardar in Macedonia, according to Austrian newspapers.

The co-operation of the Greek and Serbian armies has been accomplished. The Serbians are concentrating in fortified positions on the right bank of the river.

Leave Dead Unburied.

Vienna, June 21.—An interpellation was introduced in parliament today asking about health conditions in Scutari.

The introducer asserted that semi-decomposed and half-mummified corpses of Turkish soldiers were still unburied in the vicinity of the fortress and asked the government to compel "the negligent commander of Scutari," to fulfill the duties demanded by civilization and humanity.

The attack was aimed at vice Admiral Cecil Burney of the British navy, who as senior officer of the international fleet which blockaded the Montenegrin coast during the Balkan war, commands the international force occupying Scutari.

## SENTENCES MURDERER

Rock Island, Ill., June 21.—Clyde Stratton, the convict who escaped from the federal prison at Fort Leavenworth by going through a sewer, was found guilty of the murder of J. L. Crowder, a banker of Illinois, and punishment was fixed at 14 years in Joliet penitentiary by a jury in the circuit court, which reported this morning after being out 42 hours. Stratton was one of the three rob-

bers who attacked the banker last December, from the effect of which injuries the man died a month later. Stratton was arrested at Streator, Ill., a few days after getting away from Fort Leavenworth where he was serving five years for burglary.

Washington, June 21.—Governor General Forbes of the Philippines in a cablegram received today by the insular bureau with reference to the recent capture of the Moro stronghold of Buesaco on the island of Jolo says: "It is my firm conviction that Brigadier General Pershing exhausted all the virtues of his patience before taking the last drastic action of proceeding against the outlaws with armed force; that this action was necessary in the interest of good government and that he has handled the situation with sagacity and skill. I hope that this will be the end of all trouble on that island."

## DEMOCRATS IN CAUCUS

Discussion on the Chemical Schedule of the Tariff Bill Occupies Most of Day's Session—No Changes Made Thus Far on the Measure

Washington, June 21.—Senate Democrats resumed consideration of the tariff bill in caucus today as revised by the majority of the finance committee further reducing duties and enlarging the free list.

Discussion began on the chemical schedule, where the Underwood rates were reduced on certain dyes used in the manufacture of cotton and woolen goods, while other articles, such as creosote oil, Alaxarin and cyanides were transferred to the free list.

In the summary of the senate changes announced yesterday all sawed boards of cedar and cabinet woods appeared to have been transferred from the house free list to the dutiable list. The reverse was the case, the ten per cent duty of the house bill having been stricken off entirely by the senate committee.

Chairman Simmons announced when the caucus recessed at noon that the chemical schedule had been partly considered and that nothing had been changed. Later in the day deliberation was resumed. Protests from California were received today against the proposal of special limitation of the tax of 188 on brandies used in fortifying wines. California wine producers declared that to compel them to pay the full internal revenue tax on brandies will make it impossible for them to compete with foreign nations in manufacturing sweet wines.

## MANY DEPART ON TODAY'S TRAINS

With excursion rates both north and east today in effect, there has been another exodus of vacationists from the city. California is receiving its share of the travelers.

Miss Winnie Sullivan, Miss Edna Sullivan, Miss Frances Redfield and Miss Alice Hadfield left today for California over the Western Pacific. The young ladies expect to visit many coast places of interest before returning.

Superintendent F. M. Driggs of the State Deaf and Blind school, leaves for Chicago and other eastern cities, but he is undecided whether it is a pleasure trip. The superintendent stated that his time en route will be entirely taken up with business matters.

Others who are leaving for Chicago are Fred Massa, Miss Eva Moyes and Dr. G. G. Moyes; R. L. Noggle and Mrs. Noggle. Mrs. Theresa Struppel left over the Rio Grande for New Orleans to embark for Buenos Ayres, Argentina, where she has a daughter residing. Mr. and Mrs. H. Fisher left over the Rio Grande for Springfield, Mo.

## NO ACTION TAKEN BY THE BOARD

Although the order of the city commission to the board of education requesting the board to vacate the three rooms occupied in the city hall "without further delay" was delivered to Supt. J. M. Mills yesterday, no action has as yet been taken on the matter. No arrangements have been made by the president of the board for a special meeting to consider the order, and no effort has been made to secure other quarters to have more room indicates growth, then Ogden has advanced considerably in the last three years.

The board moved into the present offices three years ago from the old Eccles building. At that time the rooms were used almost entirely as a meeting place of the Veterans Firemen but the main room was sometimes used as a municipal court. When the board of education took up quarters in the three rooms, there was no crowding whatever. The Veterans Firemen, only, had to change their meeting place to another location.

## SONG RECITAL BY LUCIA LACOSTA

The Woman's Relief Corps No. 2, auxiliary to Dix-Logan post, co-operating with the National Society for Broader Education, presents Lucia Lacosta and associated artists in song recital on next Thursday evening and Friday afternoon at the Congregational church.

## SCHOOL WINDOWS ARE DESTROYED

Practically the entire time spent by the Weber county board of education at the session today was in consideration of the improvements needed in the various schools. Upon the

completion of the meeting, a long list had been made out, which indicates that when school opens in the fall the buildings will present a greatly altered appearance.

Some of the buildings will be painted and calcimined. All the blackboards will be newly slated and the desks in the schools will be given coats of varnish. New flooring has been ordered in some instances.

The board heard reports to the effect that several windows in the Hooper and Taylor schools have been broken. Those two schools lead the list in the number of windows smashed yearly, according to the clerk.

Newton and Jackson were awarded the contract for the heating plant of the new Warren school. The contract price was \$240.

During the week the board members will select school census enumerators and the appointments will be made next meeting.

## CANNOT CONSIDER OGDEN FOR SHOPS

## SEARCHING FOR AVIATOR'S BODY

Annapolis, Md., Jan. 21.—Search for the body of Ensign William D. Billingsley, the naval aviator, who lost his life in a hydro-aeroplane accident off Kent Island yesterday, was vigorously prosecuted today.

A fleet of boats from the naval academy took up the search, moving slowly across the surface of the bay near the spot in the sixty foot channel where the body of the unfortunate young aviator plunged beneath the waters. Lieutenant John H. Towles, who was Billingsley's companion in the air craft at the time of the accident, and whose life was saved in a manner almost miraculous, was reported to be much improved at the naval academy hospital this morning. He had some sleep last night and today had recovered to some extent from the shock to his nerves and was in a calmer frame of mind. Every indication, the doctors said, pointed to his recovery. He is very sore and terribly bruised.

## WILL INSIST ON MEASURE

President Takes a Firm Stand on the Glass Currency Bill—Says He Has Right to Recommend Specific Legislation to Congress

Washington, June 21.—President Wilson has taken a firm stand behind the Glass currency bill and has told Democratic members of the House banking and currency committee that as under the constitution he has the right to recommend specific legislation to congress he feels justified in recommending the measure now before them.

It was said at the White House today that he would not compromise on the essential features of the measure, particularly those which concern concentration of reserves in New York City and control of the money market. The fight over the retirement of \$700,000,000 2 per cent bonds, promised to be a spirited one. Several Democratic members of the House committee declare such a provision should have been retained in the bill. Mr. Glass would not say today whether he would insist on putting it back in the measure, but admitted it had been withdrawn against his protest. It is understood that the president leans favorably to such a provision, but other framers of the bill are reported to have taken the position that a separate measure incorporating that feature can be introduced in December if desired.

## 'DRYS' LOSE BIG BATTLE

Fail in Attempt to Get "Residence District Option" Bill Off the Speaker's Desk in the Lower House

Springfield, Ill., June 21.—The "drys" lost one of their big fights in the Illinois legislature when they failed early today to get the "residence district option" bill off the speaker's desk in the lower house. The measure, which would allow voters to establish anti-saloon territory in districts casting 300 to 5,000 ballots, was fought bitterly, but passed both houses. Then it was found that the senate had amended the measure slightly and that it could not go to the governor unless the house concurred in the change.

Efforts of the "dry" leaders to bring the bill up again in the house failed just before adjournment at dawn. No further business is to be transacted by the legislature at this session.

At St. Andrews, the "fire fiends" destroyed the east wing of the Gatty Marine laboratory, connected with the university.
